Awnings & Canopies

Miri Piri Sheds & Structures Pvt. Ltd. offer comprehensive range of Awning & Canopies that is manufactured in accordance with the industrial standard. These are widely used over windows, terraces, balconies, restaurants, farm houses and buildings. Our range of Awning & Canopies is easy to install and require minimum maintenance. Moreover, Miri Piri Group also provide customization facilities to the clients to meet their needs based on the parameters of sizes, shapes and color combination.

Awnings Benefits

- ◆ Awnings provide shade or sun when required
- ◆ Awning keeps out heat and lowers the electric bill
- ◆ Retains room brightness and protects indoor furnishings and carpeting from fading
- ◆ Awnings decrease glare and ultraviolet rays but not the view
- ◆ Retractable on cloudy days for interior room brightness
- ◆ No permanent stationary poles or angled side arms to walk into or block your view
- ◆ Awning reduces heat gain by 55% to 77%
- ◆ Our awnings are maintenance free!

Window Awnings

Miri Piri window awnings called NODDY are beautiful basket shaped awnings used for protection & adding beauty to windows in homes, offices, clubs and hotels. Window decoration is one of the prime target of any Architect or Interior designer and adds that final panache to a home. The importance of Exterior protection of Windows from direct sunlight is actually more paramount than interior decor, simply because Window awnings would be the one single most biggest factor in controlling the heating up of a room thus directly affecting room temperatures, thereby directly affecting the moneyspent on cooling it down or heating it up.

Retractable Awnings

Miri Piri Retractable awnings provide optimum level of Shading, Styling & Utility to take care of your weather protection and re-recreational needs. Protect your self from the heat, cold, harmful UV rays & rain and enjoy your cup of coffee/tea in the outdoors under a Miri Piri awning in all kinds of weather. It can be retracted completely using a Manual drive or using a motorised option with a switch or remote control.

SPACE FRAME

The Space Frame, as the name implies, is a three dimensional structure which caters to the need of co. It provides the required supporting structure while enhancing the aesthetics.

A space frame is a truss-like, lightweight structures rigid structure constructed from interlocking struts in a geometric pattern. Space frames usually utilize a multi directional span, and are often used to accomplish long spans with few supports. They derive their strength from the inherent rigidity of the triangular frame; flexing loads (bending moments) are transmitted as tension and compression loads along the length of each structure. Space frames structures are double layered grids, excellent in appearance with large column free spaces. All type of elegant shape could be made by these systems using variety of grids. Two-way actions of space frames provide both economy and enormous spanning capability. Our products enhance the aesthetic appeal of public places & office buildings and can be customized as per the client's requirement.

Tensile Structures

Possibilities are endless and we expand it to the core.

Tensile Membrane Structures are a striking and exciting new age method of construction. Miri Piri Sheds & Structures Pvt. Ltd. offers the potential to create spaces that are aesthetically pleasing and complement the nature environment. Tension structures utilize technical fabric roof membranes, a combination of catenary cables and clamping systems, and a minimal amount of framing to create proportionally lightweight structures capable of spanning great distances.

From concept to execution ,we make it happen.

- ◆ Flexible Design Aesthetics
- ◆ Outstanding Translucency
- ◆ Shortened Construction Schedules
- ◆ Cost Benefits
- ◆ Long Span Structures
- ◆ Earthquake Resistant

"Maximum Covered area
+ Minimum Supporting Structure
= Tensile Membrane Structure"
